

WEBSITE DEVELOPMENT - Torkk

BLACKORIGINX PRIVATE LIMITED | Torkk

TORKK — BRAND WEBSITE

Informational / Corporate Website Brief

1. Website Purpose

Torkk ki website ka purpose sirf Torkk brand aur company ke idea ko explain karna hai.

Website par user ko ye samajh aana chahiye:

- Torkk kya hai?
- Torkk kis problem ko solve kar raha hai?
- Torkk ka vision kya hai?
- Torkk ka mobility concept kya hai?
- Torkk safety ko importance kyun deta hai?
- Torkk ka future vision kya hai?
- Torkk ke baare mein basic company information kya hai?

Important: Website booking platform nahi hai.

2. Website Should NOT Include

Website par currently ye cheezein nahi chahiye:

- | | |
|----------------------------------|---|
| • Subscription plans | • Ride booking |
| • Ride pricing | • Payment functionality |
| • Fare calculator | • Customer login |
| • Booking system | • Driver login |
| • Wallet | • Complex admin dashboard |
| • Torkk Coins | • Detailed operational pricing |
| • Detailed driver recharge plans | • Unlaunched features ko live feature ke roop mein show karna |
| • Detailed customer offers | |
| • Dynamic pricing | |

Website ka focus brand storytelling + information + trust hona chahiye.

3. Website Pages

Keep website simple.

Required Pages

1. Home
2. About Torkk
3. Our Vision
4. Safety
5. Our Services

6. Contact Us

7. Privacy Policy

8. Terms & Conditions

Optional:

9. Careers

10. FAQ

4. HOME PAGE

Hero Section

Large, premium hero section.

- Headline: The Future of Everyday Mobility.
- Alternative: Move Better. Move Safer. Move with Torkk.
- Supporting text: Torkk is building a technology-driven mobility platform designed to make everyday transportation simpler, safer and more accessible.
- CTA: Explore Torkk
- Secondary: Get in Touch

Hero visual should communicate:

- Urban mobility
- Technology
- People
- Cars/bikes/auto
- Delhi NCR environment

Do not make the hero look like a ride-booking screen.

5. WHAT IS TORKK?

Section title: What is Torkk?

Content should clearly explain the idea.

Example:

Torkk is a mobility technology brand focused on building a smarter and safer everyday transportation experience. Our goal is to connect people with convenient mobility solutions through technology, accessibility and a safety-first approach.

Keep this section short and easy to understand.

6. THE PROBLEM

Section: Mobility Should Be Simpler.

Explain the problems users commonly face with urban transportation.

Examples:

- Lack of convenient transportation options
- Safety concerns
- Fragmented mobility experience
- Difficulty connecting different parts of a daily journey
- Limited technology-driven solutions for everyday commuters

Use visual storytelling rather than too much text.

7. OUR IDEA

Section title: Our Idea

Explain what Torkk is trying to build.

Focus on: Technology + Mobility + Safety + Accessibility

Torkk's concept is to create a unified mobility ecosystem that can serve different everyday transportation needs.

Use simple diagrams/visuals.

8. SAFETY

Safety should be one of the main brand pillars.

Headline: Safety Comes First.

Explain that Torkk is building its mobility experience around safety.

Talk generally about:

- Technology-enabled safety
- Verified ecosystem
- Responsible mobility
- Safety-conscious product design
- Better ride experience

Do not list technical safety features unless they are actually live.

The website should communicate the philosophy, not provide an exhaustive app feature list.

9. OUR SERVICES

Keep this high-level.

Headline: *One Mobility Platform. Multiple Ways to Move.*

Show categories:

Cab Everyday city transportation.

EV Mobility Technology-driven electric mobility solutions.

Auto Convenient everyday transportation.

Bike Fast and accessible urban mobility.

Parcel Technology-enabled local delivery and logistics.

Each should have:

- Simple icon/image
- 1–2 line explanation

No pricing.

No subscription information.

No detailed fare structure.

No booking CTA.

10. HOW WE THINK ABOUT MOBILITY

Create a brand philosophy section.

Simple Transportation should be easy to understand and use.

Safe Safety should be part of the product experience.

Accessible Mobility should be available to people with different everyday needs.

Technology Driven Technology should solve real transportation problems.

Scalable Build infrastructure that can grow across cities.

11. VISION

Headline: Our Vision

Suggested content: To build a technology-driven mobility ecosystem that makes everyday transportation safer, simpler and more accessible for millions of people.

Use a large visual section.

This should feel like a startup/company vision statement rather than an advertisement.

12.MISSION

Headline: Our Mission

Suggested content: Our mission is to use technology to create better mobility experiences for riders, drivers and communities.

Keep it concise.

13.DELHI NCR

If relevant to the current brand story, include a simple section:

Starting with Urban India . Mention Delhi NCR as the initial focus without making unsupported claims about operational coverage.

Example:

Torkk is being built with the realities of urban Indian mobility in mind, beginning with the Delhi NCR ecosystem.

Visual:

- Delhi NCR-inspired city map
- Mobility illustrations
- Minimal labels

14.FUTURE VISION

Section: Where We're Going

Talk about the long-term vision.

Potential themes:

- Smarter urban transportation
- Safer mobility
- Electric mobility
- Last-mile connectivity
- Technology-enabled logistics
- Expansion across Indian cities

Use language such as:

“We are building toward...” rather than claiming that future products are already available.

15.ABOUT BLACKORIGINX

Small company section:

Built by BlackOriginX

Content:

Torkk is a mobility brand developed by BlackOriginX Private Limited, a technology-focused company building products designed around real-world problems.

Show:

BlackOriginX Private Limited

Torkk — Mobility Technology Brand

Optional CTA:

Visit BlackOriginX

16.CONTACT

Simple contact page.

Let’s Build the Future of Mobility.

Contact categories:

- General Enquiry
- Business Partnership
- Investor / Startup Enquiry
- Careers
- Media

Form:

- Name
- Email
- Phone
- Subject
- Message

No complicated functionality.

17.FOOTER

Torkk

Short description: Building safer, simpler and smarter mobility for everyday India.

18.DESIGN STYLE

Website should feel:

- Premium
- Minimal
- Modern
- Technology-focused
- Trustworthy
- Startup/innovation focused

Visual inspiration can be taken from modern technology companies, but the design must remain original to Torkk.

Preferred design

- White + dark sections
- Torkk blue
- Light pink as accent
- Large typography

- Clean grids
- Rounded cards
- High-quality mobility imagery
- Subtle animations
- Lots of whitespace

Avoid:

- Overloaded sections
- Too many cards
- Pricing tables
- Sales-heavy UI
- Generic stock startup templates
- Excessive animations

19.NAVIGATION

Keep navigation minimal:

Home | About | Vision | Safety | Services | Contact

Right side: Get in Touch

Mobile: Hamburger menu.

Sticky navigation is preferred.

20.TECH STACK

Use:

- Next.js 15
- React
- TypeScript
- Tailwind CSS
- Framer Motion

Backend is only required if needed for the contact form or future CMS.

Do not build unnecessary backend infrastructure for this informational website.

21.SEO

Every page should have:

- Unique title
- Meta description (H1)

- Proper heading hierarchy
- Open Graph metadata
- Canonical URL
- Sitemap
- Robots.txt
- Image alt text
- Structured data where appropriate

Basic brand SEO should target terms such as:

- Torkk
- Torkk mobility
- Torkk India
- Torkk Delhi NCR
- Torkk mobility company
- Torkk transportation
- Torkk BlackOriginX

Avoid keyword stuffing.

22.RESPONSIVE DESIGN

Must work properly on:

- Mobile
- Tablet
- Laptop
- Desktop
- Large desktop displays

Priority should be: Mobile → Tablet → Desktop

No horizontal scrolling.

23.PERFORMANCE

Target:

- Lighthouse Performance 90+
- SEO 90+
- Accessibility 90+
- Best Practices 90+

Use:

- Next.js image optimization
- WebP/AVIF
- Lazy loading
- Optimized fonts

- Minimal JavaScript
- Proper caching

24.ANIMATION

Use Framer Motion only for premium, subtle interactions.

Examples:

- Hero entrance
- Scroll reveal
- Image movement
- Card hover
- Section transitions

Animation should support the storytelling and should never make the website feel slow.

25.IMPORTANT CONTENT RULE

The website is an informational brand website.

The developer/content designer should not add:

- Made-up statistics
- Fake user numbers
- Fake ride numbers
- Fake driver numbers
- Unsupported safety claims
- Unlaunched features as live features
- Fake operational cities
- Pricing claims
- Investment claims

Any statistic or claim must be provided/approved by Torkk.

26.FINAL WEBSITE EXPERIENCE

When someone visits torkk.in, within the first 30 seconds they should understand:

Torkk kya hai → Problem kya hai → Torkk kya build kar raha hai → Safety kyun important hai → Vision kya hai → Company kaun hai → Contact kaise karein.

Website ka purpose Torkk ko ek serious, modern mobility technology brand ke roop mein present karna hai, not to function as the Torkk application itself.
